and Hon. Ho Kai were then sworn in.

The ACTING COLONIAL SECRETARY laid live to enjoy it as he died a few days after it he been sanctioned. The amount recommended was equal to one year's pension. The other vote was one of £50 as remineration to Colonel

Beaumont for a report on the proposed removal of the Bokhara Rocks and also \$101 being the cost of his stay in Hongkong. His Excellence - With reference to the latter minute, before it is referred to the Finance Committee. I wish to say a few words in reference to this matter, insamuch as I took upon myself the responsibility of not asking lolonel Beaumont to undertake the work reforred to. A short time previous to the Governor's departure Colonel Beammont had interview with him and angrested the blasting 22ndult. Lin Fu. P.C. 607, deposed to finding the considerable scientific knowledge with regard to little clothing upon the body when found. In was an experiment in segard to which he would dinance is divided into nine parts, and the first subject should be all smalgamated in one and perhaps give you an estimate. naturally very anxious that this impediment. we may so call it, to navigation, should be rely attended, was held at Singapore on the Plat moved, and requested Colonel Beaumont to ly attended, was held at Singapore on the 21st stay here for a fortnight, that is the interval as it stands at present, but as regards Justices of the Peace there is some alteration. The meeting was hald under the auspices of the port and on the eve of the Governor's departure submitted the report to him. In this report experiment would be successful and that these Rocks could be got rid of, but he estimates the cost of getting rid of them at £3,000 besides certain other expenses in connection with a steam launch and the necessary apparatus. The

here the experiment night prove a success, and he believed such would be the case. After my he was not detained here to carry out the arperiment he would leave almost immediately. 1 consulted two or three of the leading members of the community and also the members of the Executive Council and the reneral impression was that an expenditure of this description would scarcely be justified by the experiment Colonel Beaumont was willing to undertake. I felt and Queensland, and was probably on her certain, as I am sure the Governor did. that Colonel Beaumout possessed a considerable amount of scientific knowledge, and it was quite possible the Bokbara Rocks would have been got rid of it he had been permitted to carry out his experiment, but at the same time, bearing in mind the number of expensive objects now being myself justified with the scanty informa-

exict machinery Colonel Beaumont would

him was not to be found in the Co-

louv, but he expressed the hope in his report

that with such machinery as could be procured

tion I was possessed of in asking Colonel Beaumont to undertake this business. The Sir Richard E. Webster refuted the charge minute which has been read to you proposes of the commissance of Lord Salisbury, but said that Colonel Beaumont, should be paid his expenses for the fortnight he remnined here. Of course such sould not be refused him. He remained here at the request of the Governor in order to draw up a report and the charge which he mentions as due to him does not seem very excessive. The Governor also wrote a minute previous to his departure tating that Colonel Beaumont should have something for the report he had drawn up on the sub-

ject. Colonel Beaumont has suggested that for

this report—it is rather lengthy and contains a

certain amount of scientific knowledge-he

should be paid the sum of £50. That will be a

matter into which the Finance Committee will

examine and will recommend to the Council such sum as they think Colonel Beaumont The Senate of the United States has ratified should receive for the drawing up of this re. sames out of court. Then there is what may port. While speaking on this subject I refer to another matter. One of the principal reasons why Colonel Beaumont was not asked to undertake this experiment was as I have already mentioned, that we have a considerable number of big works going on in the Colony on which expenditure will be necessary. Among others is one of which this Council has already heard, namely, the building of a new ballroom at Government House. When Estimates were considered last year the of \$25,000 was inserted for this purpose. Since then the Surveyor General has gone into the question of how much the hall-room

will cost, and in his estimate the cost considerably exceed the sum of \$25,000, in fact the estimated cost is \$40.000. The Governor expressed a desire before his departure that the Conneil should be made sequainted with this fact. He is most surious, not on his own so count, but on account of the community general. y, that this bail-room should be built without delay, because there is no doubt the accommodetion at Government House for large entertainments is insufficient. Therefore it is very expedient a new ball-room should be built. inasmuch as only \$25,000 was mentioned in the Estimates the Governor did not like the ballroom to be commenced without its being au-

I nonneed to the Council that the cost would be considerably in excess of the amount, mentioned in the Estimates. The Counoil is not asked now, nor is it my intention now to submit a vote for the increased expenditure. It is unlikely the sum already voted will be expended before the end of the year,

should the ball room be commenced it will be necessary that an increased sum should be seried in the Estimates for next year. reason I now mention this to the Council is that I entirely topour in the view the Governor took that public works should not be commenced or proceeded with that require a larger sum than the Council has voted, without the knowledge of the Council that the cost will probably exceed the amount voted. I need say no more but the Council is now aware of the probable cost of this ball-room, and I am sure the Surveyor-Genersl will be most happy, should any member of ATTACK BY NATIVES ON A FRENCH the Council wish to examine the plans, to show them to him, or to give any information in con-

> neotion with the ball-room which members are designs of receiving. The question now is that the recommendation of a vote for the remaucration of Colonel Beaument be referred to the Finance Committee. Question put and passed. The ACTING COLONIAL SECRETARY laid on the table the minutes of the Finance Committee of the 12th February, and moved that the votes contained therein be sanotioned by the Council:

> Carried. NATURALIZATION A Bill entitled an Ordinance for the naturalization of Lam Lenng Sing, otherwise Lam Yuk Pau, was read a first time.

> PRIVATE CEMETERIES. 1887. The object of the Rill is to exempt from the operation of Section 28 of the Public Health Ordinance the cemeteries mentioned in the schedule of the Ordinance. That section provides that burials in cometerios or burial grounds not sanctioned by Ordinance should be unlawful. None of these cemeteries, as far as I can askertain are sunctioned by Ordinance. Therefore this amending Ordinance is necessary.

I behave already alluded was passed. Justices of the Peuce have not sat and acted in the same way as Magistrates, but what the practice has been is this, that where the necessity has arisen, owing to pressure of business /which might arise in case of riots and numerous offenders, the Governor has directed Jaztices of the Peace to sit and act together as have made use of if he had had it with Magietrates. I have no doubt if Lam incorrect in this, those whose experience is longer than

mine will correct me. What this provision does is simply to express the practice which has prevailed, and it is my intention when the Bill is in committee to also provide that the power to issue warrants for the apprehension of offenders should be also retained by Justices of the Peace. As regards part III, that deals with held after the meeting of the Legislative Coun summary offences, that is to say; those offences oil yesterday afternoon, the Acting Colonial which the Magistrate has to deal with himself Secretary presiding. and not commit for trial. The provisions are supply many omissions. I don't think I need refer to them particularly, except to sections 29 and 30, which provide a much more satisfactory mode for the Magistrate taking minutes of the proceedings before him and the registration of all matters that come before him. As regards the general provisions there are considerable improvements. Hitherto there have been no provisions for the mitigation of punishment or the discharge of the defendant without punishment. Here provision is made that in cases of a paltry description the Magistrate may discharge

he defendant without punishment pover is also given to mitigate the punishment, and also where the conviction is for the payment of money to allow that payment to be made by instal ments or to be secured by recognisances. Then in sections 39 to 48 there are contained very useful provisions as to the issue of committed and distress warrants: I may say the want of these provisions has been very much felt. Magistrates or their clerks have hitherto been acting on the provisions of the English Acts that are not in force here. In sections 49 to 54 specific provision is made for taking recognisances. for taking security for good beliaviour, for binding over to keep the peace, and power is given to reduce or vary the amount of the reoognisauce, and where the wazistrate has stated what amount is to be given as security power for certain officers to take the recognispossibly appear to be conferring on the Magisfore a Justice or Justices of the Peace upon a like chair. complaint and not on information." The opponents to Chinese immigration frequently speak of immoralities of the Chinese.

On this subject I wish to say a few words. It may be sa d that a month's stay in Victoria does not emblo me to form a just opinion of affairs in that colony. Though many persons have written a book on a country in which they have stayed less than a month I acknowledge my inshility in this respect, and have therefore confined myself to recording the opinions of residwise of permitting Chinese to emigrate to those colonies.
